## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over the Colonial Pipeline Company website pages including sections entitled "Terminalling Services," "About Us," and "System Map." Colonial Pipeline Company discloses a petroleum distribution system that includes supply lines below the ground surface, such supply lines include pumping stations i.e. terminals. The system map shows the distribution system passing through several states and it would be inherent that should the pipeline system need to pass or parallel an interstate highway, that proper "permission" is acquired. Furthermore, it would have been obvious to one of ordinary skill in the art to place a pipeline under the median of a highway, since doing would facilitate laying out of the pipeline from a "point a" to a "point b", for example.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The "Association of Oil Pipe Lines" website discloses the use of interstate pipelines. The paper entitled "Williams Petroleum Products Pipeline Project"

Art Unit: 3673

discloses an interstate pipeline system. Both of the prior art would read on broadly recited claims 1 and 2.
